

APPLICATION FOR THE ISSUE OR AMENDMENT OF A NOISE CERTIFICATE

Air Navigation (Overseas Territories) (Environment Standards) Order 2015

The purpose of this Application Form is to provide the TCI CAA with sufficient data to enable the issuance of a Noise Certificate in compliance with ICAO Annex 16 Volume 1 and the Air Navigation (Overseas Territories) (Environmental Standards) Order 2015.

Where this application only refers to an amendment to an existing Noise Certificate, only complete this application in reference to the amendment and ensure that the existing OTAA approved Noise Certificate is referred to.

Where annotated * please supply a copy of the document with this application. Where considered appropriate please also supply additional supporting documentation identifying its relevance to this application.

Section 1 - APPLICANT DETAILS

Name:	
Address in Full:	
Telephone No.	
Mobile/Cell Phone No.	
Email Address:	
Technical Point of Contact for the purpose of this application	
Name:	
Address in Full:	
Telephone No. Mobile/Cell Phone No.	
Email Address:	

Section 2 – GENERAL AIRCRAFT DETAILS	
Aircraft Registration:	
Aircraft Type Model:	
Aircraft Serial Number:	
Aircraft Constructor:	
State of Design:	
Type Certifying Authority:	
Year of Construction:	
Engine/s Manufacturer and Type:	
Auxiliary Power Unit Type Model:	
Propeller's Manufacturer and Type's	
Flight Manual Reference No.	
Applicable Type Certificate Data Sheet References: N B. Reference OTAR Part 21 Subpart B	
Date of Certificate of Airworthiness Application:	
*Export Certificate of Airworthiness, issued by, date and certificate No.	
Previously Issued Noise Certificate, issue by, date & certificate No.	
Note: Where the previous Noise Certificate does not show compliance to ICAO Annex 16 Volume 1 please record below and supply equivalent documentation that is clearly applicable to the designation and modification of the aircraft referred to in this application	
*Details of Equivalent Documentation:	
Declared ICAD Noise Certification Standard:	

Section 3 - MODIFICATIONS

List all modifications that are incorporated, embodied or to be embodied for the purpose of ICAO Annex 16 Volume 1 compliance:				

*Provide copies of documentation with regard to any modifications recorded above in support of your application

Section 4 – AIRCRAFT CONFIGURATION

Record below any applicable configurations.
 This list should be limited to; only reflect those configuration that are likely to be operated to. For each configuration including the basic aircraft, if this is only applicable, complete the performance data fields derived from verifiable approved data source reflected to in Section 2 and where applicable Section 3 of Application Form.

Flight Manual Reference	Configuration Identification	Maximum Take-Off Mass (Kgs)	Maximum Landing Mass (kgs)	Lateral/Full Power Noise Level	Approach Noise Level	Flyover Noise Level	Over Flight Noise Level	Take-Off Noise Level
